 FAILURE TO MONITOR**

**ESTE INFORME CONTIENE INFORMACIÓN IMPORTANTE ACERCA DE SU AGUA POTABLE. HAGA QUE

**Monitoring Requirements Not Met for Blythe Township Municipal Authority**

Our water system violated one or more drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 12/14/2025-12/20/2025 we failed to monitor for the following contaminants and therefore cannot be sure of the quality of our drinking water during that time.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, the required sampling frequency, how many samples we took, when samples should have been taken, and the date on which corrective action samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Total Coliform/ E Coli	Biweekly/ 4 Samples	0	12/14/25-12/20/25	12/23/2025

**What happened? What was done? When will it be resolved?**

Due to competing operational priorities, staff inadvertently missed the required monitoring window for water sampling. To prevent recurrence, reminders and scheduling controls will be implemented to ensure sampling requirements are tracked and completed within the designated timeframe.
